**PETITION UNDER
37 CFR 1.47(a)**

June 9, 2004

Mail Stop Petitions

Commissioner for Patents

PO Box 1450

Alexandria, VA 22313-1450

Sir:

This Petition is filed because one of the four joint inventors, Mr. Satoshi Terada, refuses to sign an inventor declaration being submitted with the subject patent application.

As permitted under 37 CFR 1.47(a) and 35 USC 116, second paragraph, all available joint inventors are filing the application "on behalf of" themselves and on behalf of a joint inventor who refuses to "join in an application," where the signature block of the nonsigning inventor is left blank in the declaration. In this regard, it is noted that a declaration signed by all the available joint inventors with the signature block of the nonsigning inventor(s) left blank may be treated as having been signed by all the available joint inventors on behalf of the nonsigning inventor(s), unless otherwise indicated.

As required, attached is a statement by a person with first-hand knowledge of the facts supporting this Petition, Mr. Fumitaka Yokoyama, General Manager, Legal & Intellectual Property Division, Oki Electric Industry Company, Ltd.

No. 18-0002

1. The last known address of the nonsigning joint inventor, Mr. Satoshi TERADA, is 5-18-36 Konandai, Konan-ku, Yokohama-shi, KANAGAWA, 234-0054, Japan.
2. Mr. Terada resigned from the assignee company Oki Electric Industry Company, Ltd. on May 31, 2003, as evidenced by the attached certificate of resignation (Exhibit A1) and an English translation thereof (Exhibit A2).
3. A *bona fide* attempt was made to present a copy of the application papers (specification, including claims, drawings, and oath or declaration) to the nonsigning inventor for signature on or about January 23, 2004. In particular, a copy of the application papers was sent via an express delivery company to the last and only known address (residential address) of the nonsigning inventor. This is evidenced by the attached shipping receipt (Exhibit B) and a copy of the cover letter (Exhibit C1) dated January 20, 2004 to Mr. Terada (and an English translation thereof (Exhibit C2)), enclosing a copy of all of the application papers, and asking that he sign the declaration and assignment and return them to the sender.
4. It is the policy of the courier delivery company to obtain the signature of the recipient before releasing a package, and on failing to obtain such signature to return the package to the sender, together with a "non-delivery certification," which was not transmitted to the sender in this case. It therefore is deemed to be clear that the package was delivered to and accepted by Mr. Terada on or about January 23, 2004.
5. No signed document or written refusal to sign has been received by the sender. It has been almost four months since the request to sign the declaration was received by Mr. Terada, and no response has been received. Therefore, applicants have concluded that Mr. Terada refuses to sign.

On the basis of the above, Mr. Yokoyama concludes that Mr. Terada refuses to sign
PETITION UNDER 10/668,379
37 CFR 1.47(a)

the inventor declaration. In view of the above, it is submitted that all applicable requirements of 37 CFR 1.47(a) have been satisfied. Therefore the petition should be granted and the application should be accepted and examined. A petition fee of \$130, a basis application filing fee of \$770, and a four-month extension of time fee of \$1,480 are submitted herewith by way of a Credit Card PTO 2038. Should no credit card be attached or if any additional fee be required, please charge the required fee or deficiency to our Deposit Account No. 18-0002 and advise us accordingly.

Respectfully submitted,

Steven M. Rabin - Reg. No. 29,102

Sir:

This statement of facts is in support of applicants' petition to for acceptance of applicants' inventor declaration for the subject patent application, wherein one of the four joint inventors, Mr. Satoshi Terada, refuses to sign the inventor declaration and his signature and the remaining joint inventors are signing in his behalf.

As the general manager of the patent department of Oki Electric Industry Company, Ltd., the employer of Mr. Terada at the time the invention was made, I have first hand knowledge of the facts presented below.

The last known address of the nonsigning joint inventor, Mr. Satoshi Terada, is 5-18-36 Konandai, Konan-ku, Yokohama-shi, Kanagawa, 234-0054, Japan

Mr. Terada resigned from the Oki Electric Industry Company, Ltd. on May 31, 2003, as evidenced by the attached certificate of resignation (Exhibit A1) and an English translation thereof (Exhibit A2).

A *bona fide* attempt was made to present a copy of the application papers (specification, including claims, drawings, and oath or declaration) to the nonsigning inventor for signature on or about January 23, 2004. In particular, a copy of the application papers was sent via an express delivery company to the last and only known address (residential address) of the nonsigning inventor. This is evidenced by the attached shipping receipt (Exhibit B) and a copy of the cover letter (Exhibit C1) dated January 20, 2004 to Mr. Terada (and an English translation thereof (Exhibit C2)), enclosing a copy of all of the

No. 18-0002

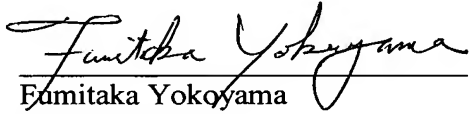

application papers, and asking that he sign the declaration and assignment and return them to the sender.

It is the policy of the courier delivery company to obtain the signature of the recipient before releasing a package, and on failing to obtain such signature to return the package to the sender, together with a "non-delivery certification," which was not transmitted to the sender in this case. It therefore is deemed to be clear that the package was delivered to and accepted by Mr. Terada on or about January 23, 2004.

No signed document or written refusal to sign has been received by the sender. It has been over four months since the request to sign the declaration was received by Mr. Terada, and no response has been received. Therefore, I have concluded that Mr. Terada refuses to sign.

I hereby declare that all statement made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statement were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 USC 1001 and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Dear Mr. Satoshi TERADA

Oki Electric Industry CO.,Ltd.
Legal & Intellectual Property Division
From Kunie on behalf of Makoto TAKASHIMA, Manager
4-10-3 Shibaura Minato-ku, Tokyo 108-8551
TEL: (03) 3455-3039 FAX: (03) 3798-7246

Request for Inventor's signature

Our reference number : F-00ED0278-US-ED

Dear Sirs,

We are pleased to announce that the U.S. Provisional application 60/441,135 of your invention has been filed as the non-provisional application.

We would like to sign your signature to attached documents in accordance with the followings.

Also, we would like to return the executed documents by January 30, 2004 because of the due date of the USPTO.

NOTE

- # The documents to sign your signature are a Declaration, an Assignment and a secrecy agreement. Before signing, please understand the details of each document.
- # As to the Description of a means for sing the Declaration and the Assignment, please refer to an attached instruction of "Request for reviewing the application and signing your signature."
- # Please return all the documents we have forwarded.

Attachments:

1. secrecy agreement
2. Declaration and Assignment forms
3. the Draft English Specification and Drawings for patent application
4. Documentation for Request letters including
 - A letter for Request for Inventor's signature(this letter)
 - A letter for Request for reviewing the application and signing your signature
